

Teaching Groups

Pupils will receive their individual timetables in September.

In Year 7 pupils will be taught mainly in their form groups.

Maths and English are taught in 2 **populations** – half the year group in each.

Maths

Groups will be arranged initially using primary information and later in the Autumn term reorganised using test results and teacher assessments.

English

English is taught in mixed ability groups as well as two additional intervention groups. The intervention groups will be created after the first half term once staff have had time to assess pupils through classwork, assessments and CAT tests. The intervention groups serve to help fill in any literacy gaps that pupils may have using a specially designed curriculum which still maintains links to the mainstream English topics of study.

For much more detail about subjects, please see the separate link for Our Curriculum.
